

## SYNA INTERNATIONAL SCHOOL, KATNI

31/03/2022

### Dear Parents

SYNA International School congratulates all the students who performed well in the promotional examination and got promoted. We welcome the new students and staff joining SYNA family this year. The new session of 2022-23 has begun from 28<sup>th</sup> March 2022 with new hopes and expectations. As we gear-up to provide the best of learning environment yet again to our students, we set our vision on our commitment to accomplish new goals to progress a step further in shaping the global citizens.

In our plan of 2022-23 we tend to focus on implementing the New Education Policy (NEP) in letter & spirit. The school is committed to regain its prominence & glory of Best Education Centre for 'Activity based Learning' after the much disconcerting two years of pandemic. Our daily routine for the boarders and the time table for all the students is a testimony to it. The school begins at 8 am with seven regular periods allotted for the academic curriculum and an intensive activity schedule of 80 minutes post-lunch. The departure for the day-scholars will be at 12:50 pm whereas the day-boarders and boarders will leave at 2:45 pm after completing their activity schedule. We have planned this robust activity programme for the day boarders and boarders along with a rationed exposure of activities and sports to the day scholars as well. However the day-scholars can avail the full range of activities on extra payment basis. This activity schedule will commence from 1<sup>st</sup> of April 2022. We have included a wide range of activities, games and sports in the hobby clubs for the choice of students. The students have already been explained the procedure of choosing and joining the hobby club activities. We request you to discuss the various activities with your children at home keeping in mind the aptitude of your children so that they can derive maximum benefit from these activities. From this year we are starting to serve the meals to the day boarders once again whereas the day-scholars will have to bring their tiffin along with them. SYNA provides the safe transport facility to its day boarding students however it is available for the day-scholars too on payment.

SYNA exists for its students and is always committed to deliver its best for the community of learners. The school will always solicit the co-operation and encouragement of the parents in order to materialise its goal of fashioning global citizens and compassionate human beings.

Following are the details of activities available to the students in the session 2022-23. Kindly help your ward to select any two activities 1 each from the given two groups with due care and discretion.
